

**THE NORTH EUROPEAN
AIR SHOW '93**

19-22/8

JÖNKÖPING AIRPORT · SWEDEN

The North European Air show is the natural meeting place for anyone and everyone with flight as their profession or hobby.

The arrangers are the Civil Aviation Administration, the Royal Swedish Aero Club, the Aviation Sports Federation, the magazine, "Flyg-ryvyn" and the Elmia trade fair company.

The event includes exhibitions, displays and seminars, a programme which tries to satisfy all interested parties.

EXHIBITIONS

The exhibition will be very comprehensive: aircraft, material, accessories and services. Anything airborne can be found here (including model aircraft), the aviation industry, airline companies, air forces, clubs authorities etc.

DISPLAYS

The displays include aircraft and every other means of flying through the air such as balloons, hang-gliders and parascending, parachutes and a lot more besides.

SEMINARS/ PROGRAMME

A number of general conferences, put together by a variety of interested parties are included in the North European Air Show. The Air show also wants to get societies and associations together within their respective fields of interest in the form of internal conferences and meetings.

TRADE AND PUBLIC DAYS SEPARATED

August 19th and 20th are trade days, intended exclusively for everyone

Products to be displayed:

directly connected with flying, such as those working for the State, municipalities, airline companies, workshops and the industry in general, but flying club members and private pilots too.

Between August 21st and 22nd, a broader section of the general public will have the opportunity to visit the Show – a PR-opportunity which we hope will contribute to an increased interest in and understanding of flying of every kind.

area comprising 1.800 m², or the same size as three football pitches, has been made available. Covered exhibition areas comprising a total of 1.500 m² – an area which the arrangers can extend considerably, should the need arise – are on offer in hangars and tents. The 2.200 m long runway means that we can take even the largest aircraft,

MAJOR RESOURCES

Jönköping Airport is offering all the facilities for a real feast of flying – an exhibition

RECURRING EVENT

The North European Air show in Jönköping will be a regularly recurring event – it will alternate annually, being both a trade and public fair one year and being organised around meetings, seminars, discussions and a small exhibition every other year.
